AURORA XT 700

PASSIVE

FLOORSTANDING SPEAKER

The Aurora XT 700 is a 3-way bass reflex floorstanding speaker designed for outstanding sound performance and refined aesthetics. With advanced kraft paper drivers, a premium crossover network, and Heco's signature Fluktus tweeter, it delivers precise, dynamic audio with deep bass and crisp highs. Its elegant, modern design ensures it complements any interior while offering versatile and practical features for an immersive listening experience.

EQUIPMENT	2 x 200 mm (8") woofers, 1 x 170 mm (6.5") midrange driver, 1 x 28 mm (1.1") dome-tweeter
POWER HANDLING (RMS/MAX)	200 / 300 Watts
IMPEDANCE RANGE	4 – 8 Ohms
NOMINAL IMPEDANCE	4 Ohms
FREQUENCY RANGE	25 – 42.000 Hz
FREQUENCY RESPONSE (-6DB)	33 – 33.000 Hz
CROSSOVER FREQUENCIES	260 Hz, 3.100 Hz
RECOMMENDED AMPLIFIER OUTPUT	30 – 300 Watts
SENSITIVITY	92 dB
CABINET SURFACE	Black/dark oak, black/walnut
DIMENSIONS (W*H*D)	195 x 1100 x 325 mm 265 x 1158 x 343 mm (incl. feet and terminal)
WEIGHT	20,7 kg
SKU / EAN	Black/dark oak: D1359020 / 4029678590206 Black/walnut: D1359022 / 4029678590220

AURORA XT SERIES

CONTEMPORARY DESIGN

The Aurora XT 700 floorstanding speaker features a satin lacquer finish on the front baffle, combined with wood vinyl on the cabinet, creating an elegant look for a modern interior. Heco is offering two new colour combinations: black with black vinyl and black with walnut vinyl. The fabric grille has hidden magnetic brackets for easy removal to suit your taste. Sturdy base rails and height-adjustable aluminium cone-shaped spikes ensure exceptional stability.

CABINET CONSTRUCTION

The cabinet features internal bracing for greater robustness and reduced vibration. Its bass reflex system uses screw-in reflex tubes to optimize airflow, and greatly improve low-frequency response and clarity. For greater stability and reduced vibrations, the speaker comes with feet with interchangeable rubber and metal spikes to adapt to different floor types and ensure optimum performance whatever the configuration of your room.

HECO WOOFERS WITH KRAFT PAPER CONES FOR DEEP AND NATURAL BASS

The Aurora XT 700 is a three-way floorstanding speaker with a dedicated midrange and two dedicated woofers. All the drivers (bass and midrange) have HECO's characteristic kraft paper cones, which guarantee natural sound reproduction. A dust cap on the woofer cone facilitates maintenance and durability. Inside the woofers, a high-performance voice coil ensures low-distortion signal transmission. The drivers are housed in robust steel baskets and secured at 6 points with a ring. The design of the Heco woofers not only improves bass response, but also the reproduction of mid-range frequencies, for a clear, precise sound.

ADVANCED HECO FLUKTUS TWEETER FOR CLEAR HIGHS

The tweeter features a 28 mm silk dome with ferrofluid cooling, for high power handling and durability. A powerful dual ferrite magnet system, combined with the innovative Fluktus acoustic flange, ensures exceptional high-frequency performance and clarity. In addition, the computer-optimized, multi-correction tweeter faceplate ensures perfect sound dispersion, delivering a rich, immersive listening experience across a wide frequency range.

PREMIUM CROSSOVER NETWORK

The phase and amplitude-optimized crossover are engineered with high-quality components for precise signal handling and delivering an accurate audio experience. The speaker features a high-grade connection terminal equipped with solid, gold-plated, and encapsulated screw connectors for reliable connectivity. Additionally, bi-wiring and bi-amping options offer flexibility for advanced audio setups, allowing enthusiasts to customize their listening experience to their preferences.

IDEAL FOR BOTH MOVIES AND MUSIC

The series includes the Aurora XT Center universal center speaker and the Aurora XT Sub universal subwoofer, both offered in a sleek black/black color combination. They are the perfect complement for setting up a 2.1 stereo set or a complete 5.1 home theater system, ensuring an immersive audio experience whether you're enjoying movies or music.
